# Motive

명령 행에 비해 크게 증가하는 빌드 시간

# Scenario

```
dev40@dev40-Samsung-Desktop-System: ~/devrid
파일(F) 편집(E) 보기(V) 검색(S) 터미널(T) 도움말(H)
Welcome to Ubuntu 14.04.1 LTS (GNU/Linux 3.13.0-35-generic x86_64)

 * Documentation:  https://help.ubuntu.com/

0 packages can be updated.
0 updates are security updates.

Last login: Tue Sep  2 07:52:55 2014 from 210.118.69.190
dev40@dev40-Samsung-Desktop-System:~$ cd devrid
dev40@dev40-Samsung-Desktop-System:~/devrid$ bin/devagent -server
=====
          Devrid Server
=====
Starting Server...
Server is Ready

=====
          Devrid Agent
          port = 27390
=====
Starting Agent...
Agent is ready
█
```

## Server & Agent 실행

```
aery@aftermath: ~/devrid
파일(F) 편집(E) 보기(V) 검색(S) 터미널(T) 도움말(H)
aery@aftermath:~$ cd devrid/
aery@aftermath:~/devrid$ bin/devagent -agent
=====
      Devrid Agent
      port = 27390
=====
Starting Agent...
Agent is ready
█
```
